Were we to plunge all at once from the sombre brown of winter to the dark green of matured summer, we should miss the most joyous season of the year.

Will you, too, take your spring with a bright happy color, or will you jump into the dark serges of the later summer?

We shouldn't print this stuff were not our stores brimful of gay suits (safe, though), russet shoes, negligé shirts, and straw hats.

Should we send you our book?
